

One Two Three Four Trucks

One, two, three, four.
This truck wants to open its door.

And when we get to the end,
we count all over again.

Seventeen, eighteen, nineteen, twenty.
When it comes to trucks, we've got plenty.

Thirteen, fourteen, fifteen, sixteen.
This truck can fix a beam.

Five, six, seven, eight.
This truck bumped into a gate.

Nine, ten, eleven, twelve.
This truck can dig and delve.
